GROWING YOUR SAVINGS

How CPF helps you save more for retirement

For greater peace of mind in your golden years, CPF provides you with a strong foundation for retirement by helping you save for your retirement income, home ownership and healthcare needs.

CONTRIBUTING

CPF contributions

Saving as an employee

From the day you begin working, you start saving for retirement. You

Saving as a self-employed person

If you are self-employed, you will

Saving as a platform worker

As a platform worker, your CPF

and your employer contribute monthly towards your CPF. As an employee, your employer is required to make CPF contributions for you.

More on CPF contributions >

contribute to MediSave for your healthcare needs. To help you make your contributions more easily, Government agencies making service payments would contribute a portion of the payment to your MediSave Account, before paying the remainder sum to you.

Self-Employed Scheme >

contributions are made through your platform operator, on a monthly basis. This applies for all platform workers.

SAVING

Save more with CPF

Top up to enjoy higher retirement payouts

Make a top-up to help you or your loved ones get higher retirement payouts. Besides building up more funds for retirement through CPF's risk-free interest rates, you can also enjoy tax relief.

Top up to build your MediSave savings

Save more for healthcare needs. You can use the savings to pay for hospitalisation and outpatient treatments as well as premiums for approved healthcare insurance. You may also get tax relief on the top-up.

Make voluntary housing refund

Besides earning interest in your CPF and having more savings for retirement, this also reduces the amount you'll have to refund when you sell your property.

RETURNS

Earning higher returns

Investing your CPF savings

You have the option to invest your Ordinary Account and Special Account savings in a wide range of investments. Learn more about investing your CPF savings.

CPF Investment Scheme

Earn risk-free CPF interest

The government helps to grow your savings by paying interest of up to 5% per annum if you are below age 55 and interest of up to 6% per annum if you are 55 and older. With compound interest, your CPF will grow year after year.

SUPPORT

Government grants and support

Support for lower-wage workers

Eligible workers will receive CPF top-ups to build up their retirement savings and cash payments to help them meet their daily needs from the Government under the Workfare Income Supplement Scheme.

Workfare Income Supplement Scheme

Platform Workers CPF Transition Support

From 2025 to 2028, the Platform Workers CPF Transition Support (PCTS) scheme provides monthly cash payments to support lower-income platform workers who make increased CPF Ordinary and Special Account contributions.
