CPF Board launches Trusted Contact notification service and CPF Safety Switch to strengthen anti-scam measures against evolving scam tactics

On 2 February 2026, CPF Board launched the Trusted Contact notification service, and CPF Safety Switch to provide members with additional ways to safeguard their CPF accounts. With scam tactics becoming increasingly sophisticated, these two new anti-scam measures add to CPF Board's existing suite of anti-scam measures[1] to better support members in being alert to scams and to safeguard their CPF savings.

Additional oversight for account security through Trusted Contact notification service

Currently, when CPF members perform CPF transactions, they receive notifications to their registered contact channels (email, SMS and/or CPF mobile app push notifications where enabled). With the new Trusted Contact notification service, CPF members aged 21 and above will have the option to appoint up to two Trusted Contacts who would receive a copy of the same notifications for important transactions[2]. This optional service provides members with an additional safeguard by enabling someone they trust, such as a family member, to help spot suspicious transactions and intervene promptly.

Upon receiving a copy of the notification, Trusted Contacts should check with their appointer to confirm that the transaction was authorised and legitimate. If Trusted Contacts suspect that their appointer may have fallen victim to a scam, they are encouraged to advise or guide
