WHY PLAN?

3 powerful reasons why you should use our planner

It's easy

We walk you through the process of creating a holistic retirement plan that takes all the important things into account: your income, CPF balances, and interest rates.

Make better financial decisions

By working out how your CPF savings will contribute to your retirement income, you can plan whether you need to top up your savings, and whether you should consider other sources of retirement

Plan for a retirement that meets your needs

A good retirement plan helps you consider today's needs as well as those of tomorrow. Strike a balance between enjoying the present and saving for the future.

PLANNER FEATURES

Take the guesswork out of your retirement income planning

Clear goal-setting

We walk you through how to set concrete retirement income goals in terms of how much you wish to receive in a month.

Work out your future expenses

Use our retirement income guide to estimate how much money you need every month when you retire.

Secure personalisation

Use actual numbers for your salary and CPF balances without worrying about passing personal data to 3rd parties.

Get suggestions

If there's a gap between your retirement income goals and your projected savings, we give you suggestions for how much to top up.

Track your progress

We save and track your goals for you. Come back later and see how changes in your salary and balances have affected progress toward your goals.

Let us help you plan your retirement income

Planning is easy if you do it regularly

Your CPF savings are a big part of your retirement income. Make

the Retirement Payout Planner a part of your regular financial planning.
