RETIREMENT WITHDRAWALS

Withdrawing on reduced life expectancy

If you have a reduced life expectancy due to a medical condition, as certified by an accredited doctor, you may apply to withdraw some of your CPF savings. Severe medical conditions that cause you to be permanently unfit for work or to lack mental capacity permanently can also be considered.

ELIGIBILITY

When you are eligible to withdraw

You may withdraw your CPF savings if you meet any of the following conditions as certified by an accredited doctor.
